

安全進出 Safe Access and Egress

- 於密閉空間工作須由合資格人士作出風險評估與建議，進入密閉空間的員工亦須有適當的安全訓練
- Before working in a confined space, a competent person shall be appointed to carry out risk assessment and make recommendation. Ensure no workers other than certified workers enter or work in the confined space.

- 進入前，密閉空間內須獲得足夠通風
- Before entering, adequate ventilation and fresh air shall be provided and maintained inside the confined space.

- 應進行氣體測驗以確定密閉空間的空氣質素不會對員工的安全構成危害，否則員工不可進入密閉空間
- Atmospheric testing of a confined space shall be carried out to determine it is safe to enter.

- 佩戴適合的個人防護裝備，於附近放置齊全的拯救設備，以備不時之需
- Use suitable personal protective equipment and rescue equipments shall be readily available.
